

E-Design Service

Here at Eliza Grace Interiors, we believe that good design and a beautiful home should be available to everyone no matter your age, income, or lifestyle. We created our E-Design Service as an affordable way to have a professionally designed space, without the price tag.

Our e-design service is perfect for the client who needs that little extra helping hand to bring everything together. You may have an idea on the interior design style you like, have a Pinterest board filled with inspirational images, but are just struggling with the confidence to choose and select each item to create your dream space. That's where our E-Design service can help!

We take into consideration your lifestyle, colour preferences, personal style and era of home to create the perfect design for you. Our service is priced per room, but we often have clients coming back room by room as they love the easy and affordable process!

The Process

Step 1 - Initial Consultation & Quote

Eliza Grace will send you through a questionnaire over email with a few simple questions such as the size of the space, furniture items required, any ideas you may already have, what design style you gravitate towards etc. Once you send back through your requirements, I can provide an exact quotation for us to get underway!

Step 2 - Zoom Consultation

Once you have accepted the quotation and made payment, we can then schedule a time that works best to do our initial zoom consultation where we can discuss all your desires, dreams, and the vision for the space.

Step 3 - EGI Design

You can contact us anytime throughout this period if you have any questions, would like an update or have spotted a piece that you would love to include in the design! We usually have an approximate 2-week lead time from start to finish.

Step 4 - Presentation Of Design

Once we have finished designing the concept for your space, we will send you through the beautifully designed moodboard to help you envision the room, a schedule of items with details of supplier, price, imagery, links to purchase and a styling dossier so you will have everything you need to bring your design to life!
